

DRIVE TO THRIVE

REINVESTING IN HOMEGROWN TALENT

SPONSORSHIP OPPORTUNITIES

Sunday, June 7, 2026 | 10AM - 1PM
Topgolf Centennial
10601 E Easter Ave, Centennial, CO 80112

Ednium believes in the brilliance in our own backyard—that the people who are products of the system have an unimpeachable voice to influence and improve our communities. More than just a fundraiser, “Drive to Thrive” is an opportunity to hear the stories and engage with our Alumni who are working to ensure that young people across Denver have the knowledge, skills and agency to **thrive**.

This work is not done in a silo, and our ability to support Alumni is only as strong as the community and the network that works alongside us. Sponsoring this event will directly support our Alumni Development work, providing leadership development and civic engagement programming to 30+ Alumni each year, while also investing in our new Career Coaching program, which will serve 100+ Alumni this fall.

When you support Alumni leadership you are strengthening our city’s future—ensuring that those who know our systems best have the power to lead change.

OUR IMPACT

Empowering Alumni: Over 140 alumni representing 20+ high schools have graduated from our leadership development and civic engagement programs, with over 1,500 alumni in our growing network.

Building Career Pathways: Through Alumni Connect, 150+ alumni and 60+ educators are engaged, and we’ve already provided coaching and support to over 330 current high school students.

Advocating for Systemic Change: Successfully championed Financial Literacy as a new statewide graduation requirement.

Unlocking Resources: Helped secure access to \$10M in scholarship reimbursements for historically underserved DPS alumni for the Prosperity Denver Fund.
